

Best Friends Fur Ever

Training Services

Balancing Both Ends of the Leash

Best Friends Fur Ever - offering the most comprehensive and customizable menu of training services.

Whether you have a new puppy or a mature dog, our new Best Friends Fur Ever Training programs enrich the life of your dog and your relationship with them. When training your dog, you learn how to best communicate with him, and he learns how to understand you. Because a good relationship requires communication, training is a vital part of that process.

Puppy TalesSM

Every puppy has a unique "tale". Your puppy's behavior habits start soon after birth. Why not build good habits from the start and really enjoy your puppy? Our reward-based training programs are located at either our

Joppa or Cockeysville locations. We will help your puppy build confidence, muscle memory, and good socialization with other dogs and confidence in new situations while experiencing a fun and engaging atmosphere.

Each Puppy TaleSM enrollment is a four-week program which meets every Monday, Wednesday, and Friday. Your puppy's day consists of half-day daycare with other puppies of the same level and half-day individual sessions with one of our Certified Trainers. Before even beginning, you will fill out a questionnaire describing your puppy, current behaviors, and skill as well as your goals for the program.

Mutt MastermindsSM

The Mutt MastermindsSM training program is for six months or older with no age limit.

Training should not be "one size fits all"; each family and dog parent has unique needs and goals for their dog. Our training program takes a balanced approach to ensure dog and parent success. We will work with you and your dog to instill foundational commands and proper responses that you will utilize throughout your dog's life. After completing our program, you will be able to enjoy your dog around distractions, improve your dog's socialization skills, and understand how to handle common issues that may arise after training is completed.

We offer two training options, Board-N-Train and Day-N-Train that will work well for any dog parent or family no matter how busy your schedule may be.
