GROOMING SERVICES

Nail Filing

Time for a pawdicure! We'll file down your dog's toenails for a round, smooth, and soft edge. The difference between this and a nail trim is the feeling of the nails after the treatment, nail filing leaves them much smoother!

Shed Control Treatment

Are you tired of your dog's fur all over your clothes, furniture, car seats, and basically everywhere else? Do both you and your pup a favor by signing them up for a shed control treatment! We'll get rid of all that excess coat that ends up being left all over your house, and your dog will leave feeling 1,000lbs lighter. We get the fur on our clothes so you don't have to!

Anal Gland Expression

Does your pup have some stinky butt? Do they do butt-scootches on your carpet a little too often? It might be time to get their anal glands expressed!

Fresh Breath Treatment

No one likes smelly breath! We'll use a cleanser to brush your dog's teeth, leaving them with a fresh breath.

Healthy Skin & Coat Treatment

Dry, itchy, and flakey skin is no match for BFFE! We use the best shampoos and conditioners you can find to give your dog a nourishing and conditioning treatment that will leave them feeling refreshed and free of itching and dandruff.

Flea/Tick Removal

Uh oh! Did your dog pick up some fleas or ticks? No problem - we'll take care of that! We use gentle formulas and techniques to remove all fleas and ticks.

Puppy Package

Pamper your puppy, 12 weeks to 5 months old, and get them acquainted with the grooming process. Our puppy package includes bath, blow dry and brush out, nail trim, ear cleaning and a light trim if needed (face, paws, sanitary).

Please note:

Certain factors can influence the total cost of grooming, bathing, and styling, including but not limited to, length and or condition of the coat, matted coat, aggressive or hard to handle pets and pet size.
